WHAT IS ABA THERAPY?

ABA therapy is the use of intervention and techniques to:

- Increase social skills, communication, & positive behaviors
- Decrease negative behaviors
- Maintain previously learned skills

It is the only evidenced-based therapeutic approach for children with ASD

HOW CAN WE HELP YOUR CHILD?

YOUR concerns are OUR concerns. We can help your child (1-21 years old) gain essential life-skills and increased independence in the following areas:

- Executive functioning skills
- Following directions
- Toilet training
- Bedtime routine
- Peer interaction
- Play skills
- Aggression & tantrum reduction

YOUR concerns are OUR concerns

"MY SON TANTRUMS KICKS, SCREAMS THROWS OBJECTS AROUND THE HOUSE WHENEVER I TELL HIM NO!"

"MY SON IS NONVERBAL AND CANNOT REQUEST HIS BASIC NEEDS. WE WISH WE HAD A WAY TO COMMUNICATE WITH HIM SO WE CAN MAKE HIM HAPPY."

"MY DAUGHTER IS SHY AND RESERVED. SHE DOES NOT GREET OR LOOK AT HER FAMILY OR FRIENDS AT HOME OR AT DAYCARE."

Reach out today to CrystalCare ABA so we can support and guide you through the therapy process. These challenging moments will become happy moments!

WHY CHOOSE CRYSTALCARE ABA?

CRYSTALCARE ABA your child's success is our priority. We TEACH the way they LEARN!

- Smooth and stress-free process from beginning to end
- No upfront cost to you, we accept most insurance plans
