Family
Reunification
Services and
Youth Mentoring

Founded in 2005, Child and Family Solutions is a premier human service agency based in New Jersey. Our primary focus is providing affordable, high-quality, and individualized services and therapeutic supports to adults, children, and families throughout the state of New Jersey.

OUR Mission

Our mission is to help individuals attain personal, behavioral, emotional, and academic goals. Through consistent care and evidence-based interventions, Child and Family Solutions continues to foster growth and stability within the family unit. Attainments of these goals are documented by our meticulous management of outcomes.

OUR Vision

Our vision is to assist individuals with identifying and developing their strengths and applying them to manage life's obstacles in a healthy, positive manner while fostering an ability to navigate their community with dignity, respect, and love.

OUR Services

Therapeutic Visitation

Master's level clinicians transport youth and oversee supervised court ordered visitations from non-custodial parents in a neutral setting without the interference of the custodial parent. Clinicians develop and work with a therapeutic treatment plan focussing on goals and interventions to strengthen the immediate behavioral needs of the family. Family therapy sessions will focus on: family preservation, neglect, proper parenting techniques and interventions to prevent abuse and promote unification. Services and treatment plans are tailor made to meet the immediate needs of the family.

Supervised Visitation

Bachelor level clinicians transport youth and oversee supervised court ordered visitations from non-custodial parents in a neutral setting without the interference of the custodial parent. Clinicians provide parenting and social skills coaching in an attempt to empower families and help strengthen relationships between children and their non-custodial parent.

Goals of Services are:

- Family reunification
- Improved parenting techniques
- Permanency for all children
- Child health and safety
- Family resources
- Empowering Parents

YOUTH Mentoring

Clinicians work with youth in their communities to help foster emotional support through time structured activities. With positive reinforcement interventions, Mentors assist youth with: academic achievement, team play, leadership skills, cultural awareness, improved self esteem and social interaction with peers and family members.

Goals of Services are:

- Improved communication skills
- Improved social interaction
- Improved self-esteem
- Respect for elders and authority figures

All clinicians are certified in first aide and CPR and maintain clean criminal history background clearances. We service all New Jersey counties.
