

## About Us

At First Children Services, family is at the heart of everything we do. We're family owned and operated and provide school and home-based services and support in our six locations throughout New Jersey & Pennsylvania. Our why is delivering Life Changing Outcomes for Exceptional Kids.

We accept private insurance, Medicaid, state and district funding and private pay. We are in-network with most major insurance plans and we assist families navigating their insurance coverage.

Looking for a meaningful career?

# Transitions Program

FOR STUDENTS WITH SCHOOL REFUSAL

## About the Transitions Program

The Transitions program is a small group, center-based, home instruction program for students in middle and high school grade levels who are unable to attend public school due to anxiety, depression, or other mental health challenges.

Our goal is to help students with school refusal, anxiety, depression and other mental health challenges learn the necessary coping skills to successfully return to their home districts.

## Counseling Services

Counseling services are provided by licensed clinicians who work closely with each student's family and collaborate with their outside providers. These services include:

- Assessment & Intervention Plan
- Individual & Group Counseling
- Social Skills support
- Transition plan

## Supported Education

The supported education track is designed for students who require enhanced supports to prepare for college and/or employment as they transition from our program.

## Services Provided

Given the rise in mental health concerns among school-aged youth, we have taken steps to accommodate more students at our center.

- Full day programming
- Counseling
- Small group learning
- Extended School Year
- Honors level courses
- Interactive and engaging environment

***"The Transitions Program gave me the chance to become a better, more successful student."***

- Eva, Transitions Program graduate
