

# KINDER GROWTH

DIRFLOORTIME®THERAPY

Supporting development through connection!

Home based throughout NJ ages 1-21  
Center based in North Jersey ages 1-6

## What is DIR Floortime?

We follow the Developmental, Individual-differences, Relationship-based (DIR) model. DIR is an evidence-based approach designed to support neurodiversity. Rooted in joy and connection, Kinder Growth celebrates each individual's unique way of experiencing the world. By joining in your child's interests and honoring their individual differences, we build strong, trusting relationships that nurture developmental growth and shared happiness!

Insurance Accepted!
