

Fun, Supportive Virtual Social Skills Groups

Our virtual social skills groups use **Applied Behavior Analysis (ABA)** strategies to help individuals build communication, empathy, problem-solving, and friendship skills, all in a fun, supportive online space.

- Groups meet once a week after school, running year-round
- Small groups of 3–5 kids, carefully matched by age and needs
- Interactive games, role-play, and hands-on activities
- Virtual sessions help kids practice both in-person and digital social skills
- Insurance often accepted for children with autism; private pay also available

Enrollment is rolling! Join anytime and watch your child grow in a structured, engaging environment.
