

OUR MISSION

Our mission is to provide high quality services through individualized, comprehensive, cost effective, and compassionate care with respect for each person.

Our goals are to enable all clients to maintain their independence through our highly skilled and motivated staff who maximize our clients' quality of life, restore health, and promote and maintain independence.

Owen Health Care strives to ensure that our client's value of life, spirituality, culture, and ethnic background provide the basis for their individualized care.

Our services are rendered without discrimination in regards to race, religion, sexual orientation, gender, age, nationality, economic and social status.
